### 2-3 Steps to Measuring Crosslay Protector

Please send digital pictures of all enclosures to ensure proper fit!

**Step A** = Measure the **width** of the crosslay opening from the **inside of the compartment** as show here. Your dimension =

\_\_\_\_\_

**Step B** = Measure the **height** of the crosslay opening from the **inside of the compartment** as show here. Your dimension =

\_\_\_\_\_

**Step C** = This step applies only to trucks with no top covering the hose. Most trucks have tops covering the hose. Measure the width of the compartment **outside (from driver's side to passenger side)**. No picture available. Call for more information. Your dimension =

\_\_\_\_\_
