

**SINCE 1980, WE'VE
MANUFACTURED THE
TOUGHEST CUSTOM FIRE
TRUCK COVERS.** Our

workmanship, material strength and attention to detail have made our covers and tarps highly sought after by fire departments and U.S.A. armed forces. If you're committed to having the best equipment for your department and appreciate having things done right the first time, I would hope you would give D&S a shot at earning your business.

Sincerely,

Dave Weyand

**"OUR DEPARTMENT
RESPONDED TO A MUTUAL
AID ALARM.** The hydrant man

charged the line without realizing we had 1400 feet left in the hose bed that was covered by a D&S tarp. The line tarp raised approximately 2 feet above the hose bed rails and did not tear, get distorted, or break any hooks. Since that time, we have purchased two more tarps for our engines."

Tom Cramer
Captain

**OUR STRENGTH
IS COVERING
YOUR ASSETS.**

"LADDER RACKS TO HOSE BED COVERS, CROSS LAYS TO COMPARTMENT COVERS, OUR STRENGTH IS COVERING YOUR ASSETS."

PATENTED FASTENING SYSTEM

Our "shock cord" system allows quick-n-easy access to compartments in any weather condition, even with gloves on. Now, you can overload the hose bed without ripping the cover (see our testimonial on back cover)!

No other covering system is this forgiving, or user friendly.

QUALITY - ISO COMPLIANT PRODUCT

Just like NFPA establishes standards for the fire service, ISO establishes standards for manufacturers. When quality matters, you'll want to feel & see the D&S difference. Call, or email us to receive your free sample.

LIMITED DOWNTIME

Save precious downtime with on-site installation. Most jobs completed within 3-hours.

COLOR PALETTE

Offering 12 different color palettes, we give your department more unique ways to project a positive image, while securing hose and equipment.

RESELLER PROGRAM

Are you an OEM dealer? We offer an attractive reseller program that puts pure profits in your pocket. Phone calls only please.
